Department News

- Deadline October 10

Perfect fit

Equipment in the world so it was a perfect fit and miners get to use the largest equipment and working outside of town in northwest Ohio that is my department. Napoleon is a small town in Ohio, I am a junior in the mining department. I’m Spencer Witt for Napoleon Mining. I love snowboarding, where I'd have the opportunity to work on projects all over the world. I like to work for a big company part of the reason I like mining. I'd travel and see new places which is why I like to mine. I'd transfer queen but I'm not leaving the U without a degree. I love to work on projects all over the world.
