install the guarding to ensure miners do not contact moving parts.

Never clean pulleys or idlers manually while belt conveyors are operating.

Tags are task trained and understand the hazards associated with the work to be performed.

Before beginning any work, ensure that persons assigned to clean belt conveyors are task trained and understand the hazards associated with the work to be performed.

Establish policies and procedures for conducting specific tasks on belt conveyors.

The victim was cleaning a return idler inside the frame of a belt conveyor when he became entangled between the return idler and the belt.

Mining Spotlight

Chloe Simons: Canyon Fuel Sufco Mine

Thomas Pickett: Newmont

Kendal Bergman: Newmont

Patrick Guild: Freeport Oro Valley Office

Nathan Bench: Freeport Oro Valley Office

Olan Nielson: Freeport Chino Mine

Clayton Sanders: Rio Tinto

Nicholas Yarington: Rio Tinto

Aaron Dalley: Rio Tinto
